- x% – 1 to 75 employees
- x% – 75 to 250 employees
- x% – 250 to 1,000+ employees

Humaans – Series A: Goals & Beyond

Plan

Short term

- **Product** – Re-build HR software ground up: great design, collaborative, fast APIs, deeply integrated into the business tech stack
 - **Distribution** – Scale vertically serving small to large organizations & partner with best-in-class point solutions
 - **People** – Scale the outbound sales motion, build the functional leadership, increase Product & Engineering capacity
-

Ambition

Long term

- Become the data platform connecting the entire HR, IT, and Finance infrastructure, for any organization – globally
 - Become the single source of truth for all employee data
-

Projections

Series A

- Scale the team from X to Y in 2022
- Grow ARR to \$x in 2022 & to \$y in 2023

Trusted by fast-growing startups, scale-ups and modern leaders

We're building by learning from category defining companies

How customers feel about Humaans

When it comes to People Products, we at Pleo aim for delighting our people in whatever product or process they experience. Humaans is a perfect example of this – it's an HRIS that is simple, intuitive and puts the employee experience first. We love to partner with Humaans, and are so grateful for our relationship with them where we co-create and solve problems together. Having a Humaans account is as essential to us as having a Google Suite account.

Jessie Danyi, Senior People Leader – Pleo

Humaans makes everything visible to everyone – it's so much more transparent and aligned with what we want to do as an organisation. It's taken away extra work and makes my job so much easier. Humaans is a 10/10 experience – I'd recommend it to anyone.

Beatriz Lourenço, Talent Lead – Fidel API

Humaans is like Notion for our People team – it just does exactly what it's supposed to do. It makes our repeatable workflows like onboarding so much faster. Onboarding used to take the best part of a day to set up – and now, we've cut the time and amount of tasks in half. Plus, our employees constantly rate our onboarding process a 9 out of 10 or above.

Thomas Forstner, Director of People and Talent – Juro

Humaans has been a really great partner for us as we scale. It feels so aligned to the experience we want to deliver both for our employees, and our customers.

Jonas Larsen, CEO – Pento

Product offering is growing – fast
