The vision since day one

1. To create a category that addresses the new way we work
2. To become the company synonymous with all things employee experience
3. To do this globally and ubiquitously

For employers:

To provide a simple and all-inclusive touch point for all their employees globally

For employees:

To access a varied range of high-quality support, no matter who or where they are

For suppliers:

To grow their revenue and community from a global audience of discerning professionals

What is Juno?

A wellbeing marketplace

The Juno marketplace consists of hundreds of high-end global brands, products and experiences. From the trendy gym down the street to a global therapy on-demand service, we've got the best of the best.

An expense platform

Our expensing feature allows employees to get reimbursed for a host of wellbeing support such as childcare, gyms, house cleaning and more. Our team approve, your team gets paid back.

A virtual card

To add that extra flexibility, Juno VISA cards can cover subscriptions for services like Patch, Barry's, Hertility Health, Bloom & Wild.

BARRY'S

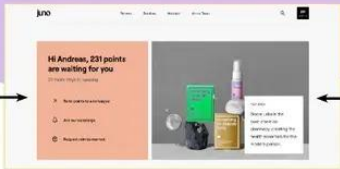

Employers are under pressure

We're pioneering an all-in-one model to attract employee benefits and wellbeing budgets

They are now expected (and may soon be required) to provide a comprehensive and globally-available benefits and wellbeing programme to their employees.

Juno's hub for all employee needs gives them the chance to do this very easily and cost-effectively.

Juno has a gigantic opportunity:

as the primary player in the *flexible benefits market*

A large yellow circle contains the text 'Global benefits spend*:' followed by a horizontal line and a list of three categories with their respective spend values. To the right of this circle is a smaller black circle containing the text 'Juno plays in all categories'.

**Global
benefits spend*:**

L&D: \$388bn
Wellbeing: \$56bn
Insurance: \$70bn

**Juno plays in all
categories**
