The Creator Economy is entering a new phase of growth

By 2023, Influencer
Marketing will reach
\$4.6 billion in the US

93% of Marketers Use
Influencer Marketing

But collaborating with creators remains a highly manual, unpredictable, and time consuming process

This distorts the Creator Economy to favor big name talent while leaving highly engaged mid-tier and long-tail creators behind.

88% of creators earn less than \$50,000 per year

**What if Influencer Marketing
could be tech-enabled,
measurable, and virtually instant?**

In 2021, we launched
Pearpop Challenges.

The New Standard in Creator Marketing

Performance-Based.

Predictable and measurable Return on Influence. Stop paying based on follower count and start paying creators for verified views and engagements on a CPM, CPV, or CPA basis.

Authentic & Brand Safe.
