

we the missing link that shoppers seek

we are a product (re)search engine for **India** that lets people search the **offline** world, while being **online**!

founders@pricebaba.com | <http://angel.co/PriceBaba>

the problem

Indian consumers research online, but they buy offline

PriceBaba Opportunity: Allowing users to research the offline market with real time data on the Internet

*"A Google **India** survey said that 7 out of 10 of buyers know the exact brand and model they want to buy with the help of online research before entering the store."*

- Offline Shoppers Who Research Online - 138 million
- Online Shoppers - Approx 12 million

what do we do?

We Let You Research Like None Other!

The screenshot shows the PriceBaba website interface. At the top, there's a search bar with the text "search for mobiles here" and a magnifying glass icon. Below the search bar, there are navigation links: Popular Mobile Phones, Samsung Phones, Android Phones, Budget Phones, Tablets, Dual SIM, and CDMA Mobiles. The main content area features a large image of a Nokia Lumia 820 on the left. To its right, the text reads "Best Price for Nokia Lumia 820" followed by "₹ 23,000" in a large font. Below this, it says "Status: Available" and "The price shown above is the best bargain price inclusive of all taxes & manufacturer's warranty." At the bottom, there's a section titled "Similar Mobiles You Might be interested in" with four product listings: LG Optimus 3D Max (₹ 22,800), Sony Xperia S (₹ 22,500), Motorola RAZR XT910 (₹ 23,500), and Sony Xperia SL (₹ 22,500). The footer indicates "Last Updated Apr 23, 2013".
