In-Depth Training

LearnTradeFollow

Options Basics

We'll cover everything from strike prices to strategy profit & loss diagrams so that you have the confidence to start tackling more advanced modules. Plus, we'll walk through some step-by-step instructions on buying and selling your first options.

What you will learn

- ✓ What an option contract is and how it's different from stocks.
- ✓ Option contract specifics including strike price, expiration, premiums, etc.
- ✓ How to leverage option payoff diagrams for building strategies.
- ✓ Multiple examples of buying and selling different types of option contracts.
- ✓ Overview of single-leg vs. multi-leg strategies and high probability trading systems.
