Incorrect elevation level

An aerial photograph of a construction site. In the foreground, there's a large, flat, light-colored area, possibly a pool or a large storage yard. To the right, a multi-story building is under construction, with several yellow tower cranes visible. The background shows a residential area with houses and trees. A blue line with circular endpoints is drawn across the middle of the image, connecting the 'Incorrect elevation level' callout to the 'Level #2 construction runs late' callout.

Level #2 construction runs late

Pillars positioned incorrectly
