

BRIGHT·MD

| Automating Healthcare
Delivery

2020

The problem

A crushing provider shortage is at the root of health system challenges

Physician shortages: Estimates from 2010 to 2025

Healthcare's
crushing problem

Currently a 15% shortfall of PCP
capacity, and getting worse every year

Source: American College of Physicians. Controlling Health Care Costs While Promoting
The Best Possible Health Outcomes. Philadelphia: American College of Physicians; 2009

EMR's don't help

Unlike every other major industry, productivity in healthcare has been *negatively* impacted by digitization

Productivity Impact of Digitization By Industry

“Telehealth” does not help

According to the Advisory Board, video visits take about the same amount of clinician time as in-person visits.

The solution

SmartExam™

*Radically decrease time and
cost while increasing
everything that matters*

Why We are Special: SmartExam™

Patient takes a SmartExam on a smartphone or computer

SmartExam processes interview and generates a provisional diagnosis, treatment plan and chart note that the physician reviews and signs off

SmartExam sends interview back into the EMR as a separate encounter, completes billing, ordering, & sends AVS to patient

The Patient Experience

- Eligibility check
- EHR Review
- Online Clinical Interview
- Personalized Diagnosis & Treatment
- Rx if needed
- Referrals
- Educational Materials
- Work excuse notes

The Clinician Experience

- Alert that patient is in queue
- In app-EHR Review
- Results of clinical interview
- Differential diagnosis & treatment plan
- Chart-ready SOAP note
- Rx if needed
- AVS
- Billing file

UNIQUE BENEFITS OF SMARTEXAM™

- 15-20x multiplier on physician capacity
- No training needed - less than 1h to clinician proficiency
- COVID Evaluation, based on up-to-date CDC guidelines
- Patient UI in English and Spanish, with real-time medically certified translation to provider chart notes
- Asynchronous, AI-supported remote care to reduce infection risk
- Built-in advanced clinical decision support, driving improved clinical outcomes

Proven value

>30%

New Patient
Acquisition

<2 mins

Provider
Time

90%

Patient
Satisfaction

*Deliver care for half the cost
of a nurse advice line call*

*Creation of 7 FTE of clinical
capacity; a value of \$1.75M!*

*Enable greater geographic
footprint for care delivery*

Positive ROI in less than a year

All types of healthcare systems

Fee for Service

For profit

Not for profit

Large Multi System,
Multi State System

Academic Medical Centers

Virtual only

Small, rural
Single Hospital System

Accolades from Patients & Providers

"Awesome! Convenient! Thorough!"

"Much better than going in person and waiting in an urgent care."

"It is entirely consistent, and more thorough than I would be. Lowers the variability...."

"Ease of use, the fact that I didn't have to wait in ER to get meds for a UTI. Or even wait till the morning to call my doctors office to see if I can get in at some point today. Got the meds last night and I am already feeling a lot better."

"Quick, convenient, easy access to care for patient; As a provider I like the HPI/ROS entered by patient, and auto generated note."

"Automatically picks diagnosis and treatment, and I can easily change this if needed."

"Love the ease of accessing the program anywhere you are."

"The most comprehensive history I could possibly ask for."

"My husband went to Minute Clinic around the same time I started SmartExam. It took him 3 hours. It took me 15 minutes, complete to prescriptions sent to pharmacy!"

BRIGHT·MD

Everyone has a health story.

We have a new exponentially more about medicine science than at any other time in history. Only through the effective deployment of modern and existing IT can we utilize and advance this knowledge to its full potential. At Chilmark Research, our mission is to drive the community in the right direction to truly move the needle on care delivery.

CHILMARK NAMES BRIGHT.MD VENDOR TO WATCH

"The U.S. primary care system no longer meets the needs of its patients or providers," the report notes. "New technological approaches combined with the drive to move care to lower cost settings are creating care models that better meet patient needs and are accessible on demand."

—Chilmark Research, November 2019

Gartner®

New Hype Cycle Category

"Transformational" in their "ability to substantially increase both patient and clinician satisfaction and deliver high-quality care."
