

Contactually powers great relationships.
CRM for Professional Services

Zvi Band, CEO

Relationships power amazing

For the 7.8M in professional services (real estate, legal, financial services), referrals drive 85% of business - **staying in touch is critical.**

Contactually helps stay engaged

- Active Contactually users report a **34% increase in the number of referrals** they receive annually
- Within 3 months of joining, Contactually users **engage with 97% more people** in their network than before

We make it easy and engaging to stay in

Average ACV: \$80K

We're going after the gap in a growing

The CRM market is forecasted to swell to \$36.5B in the next two years.

Less than half of professional service providers use a CRM.

Why?

Existing CRMs are not built to drive bottom-up adoption with end users

Fundamentally different model of CRM needed (non transactional database)

We've raised \$3.5M in capital, here's where we go next

Product

- Data insight team to bring key insights and reduce user action
- Build in-demand feature set for teams and enterprise
- Expansion of mobile team and roadmap

Growth

- Expansion of enterprise sales practice
- Capture more customers in enterprise and SMB
- Develop additional markets in professional services
